# Blue Ridge

City Hall 480 West First Street Blue Ridge, Georgia 30513

November 1, 2023

The Honorable Mayor and City Council City of Blue Ridge Blue Ridge, Georgia 30513

RE: 2023 Budget Message

Members of the City Council:

In accordance with Section 6.24 of the Charter of the City of Blue Ridge, I hereby submit the proposed Budget for all funds for the fiscal year beginning January 1, 2024, for your review and consideration. The budget document emphasizes a professional and conservative fiscal approach and represents the single most important report presented to the City Council. It is primarily intended to establish an action, operational, and financial plan for the delivery of City services.

# **Budget Format**

This single budget document, which includes all City Funds and service programs, has been prepared to provide the public with a comprehensive overview of all City services and financial framework. The preparation of the budget document marks a commitment to a planned and professional process of developing a budget that will address both current and future issues facing the City, providing adequate service levels and the necessary justification to support all expenditure requests. Importantly, it also serves as an aid to the residents in providing a better understanding of the City's operating and fiscal programs.

### 2024 Budget Priorities/Goals

The following represents the pre-established priorities and goals that provided a framework for the preparation of the 2024 Budget Plan.

- ✓ Maintain the "roll back" property tax rate in light of the economic times our residents and businesses are experiencing. The recommended tax is 4.106 millage rate.
- ✓ Fund and address high priority capital improvements that include drainage improvements, road resurfacing, sidewalk improvements, numerous needed infrastructure improvements

- to the water and sewer system and construction of a new replacement downtown restroom facility.
- ✓ Bridge the revenue gap by utilizing fund balance from previous years to support nonrecurring infrastructure improvements.
- ✓ In response to high inflation rates for goods and services, limit increases in operating costs while maintaining current service levels and programs.
- ✓ Continue programs and events that expand the use of the City's Farmers Market facility.
- ✓ Ensure the safety of those who live, work and visit the City.
- ✓ Work closely with Fannin County Government to serve the needs of our residents.
- ✓ Continue to utilize technology and update systems to improve productivity and lower costs of providing services.

# **Summary of All Budgetary Funds**

The total proposed budget for 2024, including all funds, capital outlay and debt service, is \$24,020,834. This is \$4,352,627 or 22.1% more as compared to the prior year. Capital expenditure/Infrastructure improvements accounted for \$4,159,491 04 or 96% of the increase. Operating expenditure totaled \$7,765,225 and increased by 3%. Debt Service expenditures total \$817,677 and decreased by 4.2% by some debt being paid off and the changes to the timing of debt payments for projects in the Water and Sewer Fund. Capital Outlay costs increased by 36.9% or \$4,352,627 by funding additional projects and addressing infrastructure needs.

	\$ 19,668,207	\$ 24,020,834	\$ 4,377,002	22.1%

# **Personal Services**

Personal Services increased by \$220,355 or 6.0% compared to the prior year. A large portion of the increase was attributed to a 10% increase in health insurance premiums which resulted in an \$80,000 increase compared to the prior year. Without the health insurance cost increase, employee costs increased by 3.8%. The budget does not contain any new full-time employee positions. One part-time Accounts Payable Clerk position was added and the full-time Field Superintendent position was reclassified and reduced to part-time.

In order to assist our employees in dealing with high inflation costs and remain competitive in this employment environment, the budget includes a 3% cost of living adjustment and a performance/merit increase bonus from 0% to 3% depending on the employee's evaluation. The total number of full-time employees remains at 44. The total number of part-time employees increased from 8 to 9.

Again, this year, for transparency purposes, employee's costs are split on a percentage based on their time contribution between various departments and between the General and Water & Sewer Fund.

# **Capital Outlay**

A total of \$15,437,932 has been budgeted for Capital Outlay projects. This is a 36.9% increase over the prior year. Below is a summary of the major projects:

Sewer Plant Rehabilitation \$4,900,000
Industrial Road Lift Station Upgrade \$3,300,000
Mountain Tops Water Main Replacement \$2,000,000
Drainage Improvements \$1,900,000
Downtown Replacement Restroom Facility Construction \$880,000
Road Resurfacing Sidewalk Improvements \$1,284,370
East First Street Sewer Main Repair \$250,000
Austin Street Water Main Replacement \$150,000
Raw Water Vault Replacement \$100,000
Downtown Park Gazebo Repairs \$50,000

Funds have also been set aside to address improvements at the Farmers Market.

# **Departmental Budget Comparison**

The following chart shows a comparison of each department's budget for the past two (2) years.

### **General Fund**

The General Fund is used to account for resources and expenditures that are available for the City's general operations of City government functions.

The revenues, available for allocation in the 2024 fiscal year General Fund Budget, are anticipated to be \$5,115,021. This is an increase of \$324,313 or 6.8% as compared to last year. The majority of the increase is attributed to revenues from sales tax, permits and parking fees.

The Tax Digest submitted by the County Property Appraiser slightly increased from \$193,234,978 in 2022 to \$193,361,278 in 2023. This represents an increase of \$126,300. However, based on the tax digest prepared by the county, there was a reduction of \$2,543,576 caused by reassessments, the clean-up of the tax rolls by removing properties that were in the county or personal property for establishments no longer in business. This resulted in a slightly higher rollback tax rate of 4.106 compared to last year's rate of \$4.050. This will generate \$762,000 in revenue for the City, compared to \$751,000 in the budget for FY2023.

The estimated 2024 General Fund expenditures contained within this budget total \$5,115,021 and are balanced with the projected revenues. Total expenditures are \$324,313 or 6.8% more than the 2023 fiscal year amount. This is primarily due to increased Capital Outlay expenditures and personal services costs.

# **Confiscated Asset Fund**

The Confiscated Assets Fund is a special revenue fund used to account for the proceeds of specific revenue sources that are legally restricted to expenditures from the sale of confiscated assets. This fund enhances special projects within the Police Department. This cost center is funded solely through property and asset forfeitures. The amount budget for 2024 is \$1,500 and remains the same as the prior year.

# **Hotel/Motel Tax Fund**

This fund is a special revenue fund used to account for revenues and expenditures specifically associated with the Hotel Motel Tax allowed by State law. The Tax is an excise tax on rooms, lodgings, and accommodations to provide additional funding for the promotion of tourism, conventions, and trade shows in the city. Revenues are projected to be \$1,215,000 for 2024. The Hotel/Motel tax is estimated to generate \$735,000. The tax received is then distributed as follows:

- Non-Restricted- Proceeds can be used for any legal purpose in the City (37.5%) and is transferred to the General Fund.
- Restricted Tourism, Conventions and Trade Shows Destination Marketing Organization, Fannin County Chamber of Commerce (43.75%).
- Restricted Tourism Product Development (TPD) Creation or expansion of physical attraction which are available and open to the public and which improve destination appeal to visitors and used by visitors (18.75%)

The funds retained by the City will be used to assist funding the Downtown Bathroom Facility construction and improvements to the Farmers Market.

# **SPLOST Fund 2017**

The Special Purpose Local Option Sales Tax (SPLOST) 2017 Fund is a capital project fund. The SPLOST 2017 accounts for construction of major capital projects financed by SPLOST proceeds. A 2017 intergovernmental agreement between Fannin County and the City of Blue Ridge, which expired this October, stated the City may anticipate \$2.1 million in SPLOST 2017 proceeds over the life of the SPLOST for approved capital projects.

It is projected that fund balance revenues for this fund in 2024 will be \$1,520,000. Major projects to be funded include \$1,100,000 for drainage improvements and \$420,000 for mountain tops watermain replacement.

### **SPLOST Fund 2023**

The Special Purpose Local Option Sales Tax (SPLOST) 2023 Fund is a capital project fund. This is a voter approved renewal of the the SPLOST and accounts for construction of major capital projects financed by SPLOST proceeds. The 2023 intergovernmental agreement between Fannin County and the City of Blue Ridge, stated beginning in November 2023, the City may anticipate \$4.2 million in SPLOST 2023 proceeds over the life of the SPLOST for approved capital projects as follows:

\$3,001,600	Maintenance repair and construction of roads, drainage and sidewalks
\$1,002,400	Water & Sewer upgrades and capital outlay
\$ 196,000	Recreational Facilities and improvements

It is projected that the revenues for this fund in 2024 will be \$700,000 to fund drainage projects.

# **Water and Sewer Fund**

The Water and Sewer Fund is considered a proprietary fund. It accounts for the provision of water and sewer services to the defined service area. All activities necessary to provide such services are accounted for in this fund. Activities include providing high-quality drinking water, wastewater treatment and disposal services, and adequate water under sufficient pressure to our residents, customers, businesses and visitors.

The revenues and expenditures, available for allocation in the 2024 fiscal year Water and Sewer Fund Budget, are anticipated to be \$15,069,313. This is a increase of \$3,450,359 or 29.7% as compared to last year. The majority of the increase is the result of \$3,320,000 more in capital projects/infrastructure improvements when compared to the prior fiscal year. This includes rehabilitation of the Sewer Plant and lift stations, reducing infiltration into the sewer system, and replacing aging water mains and lines. In order to support increased operating costs and to address infrastructure improvements and debt service requirements, water or sewer rates are recommended to increase by 3.75%. Rates have not increased in four years.

# **Summary**

I am pleased to submit the detailed budget contained herein, for Fiscal Year 2024. Overall, the proposed budget establishes the framework for quality level of services required by the City residents and the business community within available resources and at the same time, accomplishes the pre-established priorities established by the Mayor and City Council.

The preparation and formulation of this document could not have been accomplished without the assistance and dedicated efforts of all Department Heads and Supervisors. I also appreciation the valuable input form the Mayor and City Councilmembers in formulating the budget priorities. All questions, relating to the budget, should be referred to my attention. A Council Workshop meeting will be held, to review, in detail, the proposed budget document.

Respectfully submitted,

Eric M. Soroka City Administrator

# **Our Mission Statement**

Our mission is to enrich the quality of life in Blue Ridge for all our citizens. We pledge to work in partnership with our residents, all stake holders and the Fannin County government to protect, preserve and secure the quaintness of our small-town community and to enhance the natural beauty of our environment.

# **Budgetary Policies**

The budget process provides the primary mechanism by which key decisions are made regarding the levels and types of services to be provided within estimated available resources. Budget policy guides this process and directs the City's financial health and stability.

At a minimum, the City shall adopt annual balanced budgets for the general fund, each special revenue fund, and each debt service fund in accordance with the Official Code of Georgia, O.C.G.A. 36-81-3. Georgia law also requires a project-length balanced budget for each capital projects fund.

The annual proposed budgeted should be submitted to the governing authority while being held at City Hall for public review/inspection in accordance with O.C.G.A. 36-81-3. A public hearing will be conducted after proper advertisement prior to the City Council adopting and approving the annual budget document (O.C.G.A. 36-81-5 and 36-81-6).

# BUDGET OBJECTIVE BY TYPE OF FUND

The following budget objectives are established for the different funds the City uses:

### General Fund

The annual budget for the General Fund shall provide for the general government operations of the City and maintain working capital necessary for financial planning and managing the resources of the City.

# Special Revenue Fund(s)

The City adopts annual budget for each special revenue fund that demonstrates any legally restricted revenue sources are used consistent with the applicable laws and/or regulations (i.e. Hotel/Motel Tax Fund).

# Capital Project Fund(s)

The City adopts project budgets for each of its capital project funds. These adopted appropriations do not lapse at the end of a fiscal year; rather they remain in effect until project completion or re-appropriation by City Council.

# Debt Service Fund(s)

The City adopts annual budgets for any debt service fund. Any remaining fund balances from prior years plus current year's projected revenues shall be sufficient to meet all annual debt service requirements.

### Proprietary Funds(s)

Although Generally Accepted Accounting Principles (GAAP) and Georgia statutes do not require the City to adopt budgets for enterprise funds, the City does adopt budget a for enterprise funds in order to monitor revenues and control expenses. The City uses a business approach when budgeting enterprise funds. Enterprise funds shall be self-supporting whenever possible and subsidized losses will be minimized when break-even is not possible.

Additionally, the City classifies funds as either operating funds or non-operating funds. Operating funds are those funds that include appropriations for the payment of salary and benefits and whose maintenance and operating appropriations are necessary to continue the daily operations of the City. The General Fund will always be an operating fund. Non-operating funds are those funds that do not include appropriations for the payment of salary and benefits and whose maintenance and operating appropriations are not critical to the daily operations of the City.

# BASIS OF BUDGETING

Neither GAAP nor Georgia statutes address a required basis of budgeting; however, the City shall adopt budgets in conformity with GAAP for all budgeted funds. All governmental funds shall use the modified accrual basis of accounting. Proprietary funds shall use the accrual basis of accounting with the exception that debt principal payments and capital outlay are budgeted and depreciation is not for budgeting cash flow purposes.

# **BALANCED BUDGET**

A balanced budget is defined as one in which total anticipated revenues plus that portion of fund balance in excess of authorized reserves that is designated as a budget-funding source shall equal total estimated expenditures for each fund. The City shall avoid budgetary procedures that balance current expenditures through the obligation of future resources. The City shall avoid short-term borrowing to meet operating budget requirements, except as authorized by the City Council. Revenues include those which are due for the current year. Expenditures appropriated by the annual budget include items for which disbursements are made or incurred during the fiscal year through the payables process. All operating budget appropriations shall lapse at the end of the fiscal year. Purchases encumbered in the current year, but not received until the following year, must be charged against a department's subsequent year appropriation.

# BUDGET ADOPTION AND CONTROL

All budgets shall be adopted at the legal level of budgetary control, which is the department level within each individual fund. The City budget is adopted annually by resolution of the Mayor and Council before the beginning of the new fiscal year. In accordance with O.C.G.A. 36-80-21, as soon as the City has adopted a final budget for an upcoming fiscal year, a copy of the budget shall be electronically transmitted in a PDF file to the Vinson Institute and posted on the website accessible to the public. The PDF should be transmitted no later than 30 calendar days following the adoption of the budget resolution. The budget shall be developed based upon "line item" expenditures within each department. This type of budget focuses on categories of expenditures such as personal services, purchased services, supplies, capital outlay, etc. within each department. At a minimum, each department's appropriation in each fund shall be detailed within the budget document (O.C.G.A. 36-81-3 and 36-81-5). Departments are based on function and activity classifications in the Georgia Department of Community Affairs chart of accounts.

A system of budgetary controls shall be maintained to assure adherence to the budget. Timely monthly reports shall be prepared comparing actual revenues and expenditures/expenses with budgeted amounts to be distributed to the Mayor/City Council and Department Heads.

# AUTHORIZATION OF BUDGET ADJUSTMENTS AND AMENDMENTS

The budget is a dynamic rather than static plan, which requires adjustments and formal budget amendments as circumstances change. The Mayor and City Council must approve all amendments in total departmental appropriations by resolution. The City Administrator can make reallocation of budgeted amounts within expenditures/ expenses of a department or revenues of a department. The City Administrator shall be the constituted budget officer for the City. Adjustments from appropriations that have been restricted, committed, or assigned for a designated purpose shall not be transferred until a formal de-obligation occurs. Budget amendments or reallocations are recorded in the general ledger upon approval by the Mayor and Council or City Administrator.

MAINTENANCE AND REPLACEMENT OF CAPITAL EQUIPMENT

The budget for capital expense shall be incorporated with the current year operating budgets for each fund and shall be funded by current operating revenue to the extent possible. An itemized listing of capital expense, equipment and projects shall be included in the budget document.

# **BUDGET STABILIZATION & FUND BALANCE POLICY**

The City shall strive to establish a fund balance reserve in all operating funds for working capital. The purpose of working capital is to cover the cost of expenditures caused by unforeseen emergencies, cover shortfalls caused by revenue declines, and to eliminate any short-term borrowing for cash flow purposes. This reserve shall accumulate and then be maintained at an amount that represents no less than three (3) months of operating and debt expenditures (approximately 25% of budgeted expenditures.) Non-operating funds do not need a reserve for working capital. If necessary, the City may use unrestricted fund balance as a funding source for that fund's budget in any given year. The amount of unrestricted fund balance shall be estimated conservatively, taking into consideration future year needs. The minimum requirement for the reserve for working capital, equal to three (3) months of operating and debt expenditures, must first be met before utilizing the excess fund balance as a funding source for the budget. The utilization of fund balance shall be deemed a use of one-time revenues for budgeting purposes.

# CONTINGENCY LINE-ITEM

The City shall establish an appropriated contingency of one percent (1%) of the total annual expenditure appropriation in all operating funds in order to accommodate unexpected operational changes, legislative impacts, or other economic events affecting the City's operations which could not have been reasonably anticipated at the time the budget was prepared. Non-operating funds shall not require a contingency reserve appropriation. This contingency reserve appropriation will be a separate line-item within the budget. This amount shall be subject to annual appropriation. The approval of the Mayor and Council and City Administrator is required before this appropriation can be expended. If approved, the Finance Director will transfer the appropriation from the contingency line-item to the applicable line item(s) within the applicable department's budget.

### CONTRIBUTIONS

Unless authorized by City Council, outside contributions to programs operated by City departments shall be subject to the City's accounting and budgetary policies. The City welcomes both unrestricted and restricted contributions compatible with the City's programs and objectives. Any material contribution shall be appropriated by City Council prior to expenditure. Material contributions shall be defined as one-time contributions exceeding one percent (1%) of the department's annual maintenance and operating expenditure appropriation or \$25,000, whichever is less.

# ONE-TIME REVENUE SOURCES

Non-recurring revenues shall be utilized within the appropriate fund for items relating to non-recurring expenses. The purpose of limiting these funding sources is to eliminate the fluctuations in funding operations with non-sustainable resources. One-time revenues shall be distinguished during the budget process so that a match can be made with non-recurring expenditures.

# **Accounting Policies**

The City shall maintain a system of financial monitoring control and reporting for all operations and funds in order to provide an effective means of ensuring that financial integrity is not compromised. Such practices shall provide City officials with the necessary resources in order to make sound financial decisions.

# **GENERALLY ACCEPTED**

# ACCOUNTING PRINCIPALS (GAAP)

The City will establish and maintain a high standard of accounting practices to conform to generally accepted accounting principles of the United States as promulgated by the Governmental Accounting Standards Board (GASB). The City also will follow the Financial Accounting Standards Board's pronouncements, as applicable.

# FUND STRUCTURE

The City will maintain the minimum number of funds consistent with legal compliance and sound financial administration. The City will adhere to the mandatory fund structure included in the Georgia Department of Community Affairs' (DCA) chart of accounts. Funds shall be classified in conformity with GAAP. Further, all funds shall be reported within the annual financial statements.

The Georgia General Assembly passed the Local Government Uniform Chart of Accounts and Reporting Act in 1997 (House Bill 491). This law required the DCA to prepare and issue a standardized chart of accounts for Georgia governments. The City shall implement and utilize the account classifications as the chart of accounts prescribes.

# **FUND BALANCE POLICY**

The fund balance of governmental funds can be classified into five different categories which are nonspendable, restricted, committed, assigned, and unassigned. Nonspendable fund balance are resources that are not in spendable form or are legally or contractually required to be maintained intact, such as inventory or prepaid assets. Some constraints on the use of resources are externally enforceable, imposed by law or enabling legislation and are classified as restricted. An example includes hotel/motel tax resources. Portions of fund balance can be committed if constraints are formally imposed by the government's highest level of decision-making authority by no later than the end of the reporting period. The Mayor and Council are required to formally commit fund balance by resolution or in the approved budget. Assigned fund balance is a resource earmarked for particular purposes and can be designated by the City Administrator with written authorization. The remaining fund balance not classified in any of the previous categories is labeled unassigned. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted first, then unrestricted resources as they are needed. When an expenditure is incurred for purposes for which amounts in committed, assigned, or unassigned fund balance could be used, it is the government's policy to first use committed and then assigned fund balance if available. Unassigned fund balance would be used for remaining expenditures from unrestricted fund balance. Annually, after the audit is complete, the Finance Director shall report the City's fund balance and the classification of the various components in accordance with GAPP and this policy.

## CASH AND INVESTMENT POLICY

Georgia law (O.C.G.A. 36-83-4) sets forth acceptable investments for Georgia governmental entities. To limit risks for the City's deposits, the City generally limits investments to certificates

of deposit thorough local financial institutions. However, upon approval of the Mayor and Council, any investment authorized by Georgia code would be acceptable.

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be recovered. State statutes require all deposits to be collateralized by depository insurance, obligations of the United States or certain obligations guaranteed by the U.S. Government, obligations of the State of Georgia or bonds of public or development authorities, counties, or municipalities of the State of Georgia. It is the City's policy that any investment or deposit in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount must be secured by 110% of an equivalent amount of State or U.S. Obligations. Deposits exceeding FDIC limits secured thru the local government investment pool, "Georgia Fund 1," created by O.C.G.A. 36-83-8 or a collateral pool are acceptable securities. Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of an investment. It is currently the City's policy to not invest in instruments with a variable interest rate. Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. It is the City's policy to invest in non-negotiable certificates of deposit and money market accounts that are covered by FDIC insurance or pledged collateral

# **Auditing and Financial Reporting Policies**

Georgia law on local government audits, O.C.G.A. Section 36-81-7, requires an independent annual audit. The audit shall be conducted in accordance with generally accepted auditing standards (GAAS) and generally accepted governmental auditing standards (GAGAS). In addition, the City shall comply with the requirements of the General Accounting Office (GAO) and the Office of Management and Budget (OMB) when audits are conducted relating to federal funding, consistent with the 1996 (and any future) amendments to the Single Audit Act. The agreement between the independent auditor and the City shall be in the form of a written contract or an engagement letter. A properly licensed Georgia independent public accounting firm shall conduct the audit. In conjunction with the annual independent audit, the City shall prepare and publish an Annual Financial Report in conformity with GAAP. The City shall make this report available to elected officials, bond rating agencies, creditors and citizens. The City shall report in conformity with O.C.G.A. Section 36-81-7 and a copy of the City's annual audit shall be submitted to the Georgia Department of Audits and Accounts within 180 days of year end, as required. The report shall be published on the website of the Carl Vinson Institute of Government of the University of Georgia in accordance with O.C.G.A 36-80-21. This requires that each local government shall electronically transmit a copy of the audit concurrent with submission of the audit to the state auditor.

# **Internal Control Policies**

An effective system of internal control allows management to deal with rapidly changing economic and competitive environments, shifting customer demands and priorities, and restructuring for future growth. Internal control promotes efficiency, reduces risks of asset loss, and helps ensure the reliability of financial statements and compliance with laws and regulations.

We define internal control as follows:

Internal control is a process, management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the following categories:

- Effectiveness and efficiency of operations
- Reliability of financial reporting
- Compliance with applicable laws and regulations

Accounting controls comprise the state of organization and the procedures and records that are concerned with the safeguarding of assets and the reliability of financial records, and, consequently are designed to provide reasonable assurance that:

- 1. Transactions are authorized in accordance with management's general or specific authorization.
- 2. Transactions are recorded as necessary (a) to permit preparation of financial statements in conformity with Generally Accepted Accounting Principles and other criteria as applicable to such statements and (b) to maintain accountability for assets.
- 3. Access to assets is permitted only in accordance with management's authorization.

The City of Blue Ridge has established procedures to protect assets, monitor the accuracy and reliability of accounting data for public funds, and provide guidelines that encourage and promote fiscal integrity of open and honest financial reporting necessary to carry out the day-to-day financial affairs of the City. These internal controls are considered cost effective to the City in order to achieve maximum benefits as a direct result of the procedures. The City of Blue Ridge utilizes the following universal controls:

- 1. Separation of Functional Responsibilities All procedures are structured to separate responsibilities as needed and to the extent possible with current staffing. The following areas should be noted:
  - a) Preparation of cash deposits separate from posting of cash receipts.
  - b) Approval of checks from processing/posting of cash disbursements.
  - c) Receiving of goods from ordering goods.
  - d) Ordering goods from processing payments.
  - e) Processing paychecks from enrolling new employees or changing pay rates.
  - f) Within the constraints of the department of the City, all duties shall be segregated that could lead to the appearance of a conflict of interest.
  - g) An employee without prior access to records is used to:
    - Reconcile bank statements
    - Open mail
    - Intermittent testing of petty cash drawers and change drawers
- 2. An uncomplicated and adaptable organization plan which clearly places responsibilities for specific activities on specific individuals.
- 3. An annual budget prepared in detail and reviewed monthly by the department heads in conjunction with the finance department with copies of budget reports provided to the Mayor and Council in an effort to promote an effective and efficient City administration, which addresses the need for financial constraint and stability.
- 4. Sufficient and competent personnel, who receive updated training and education necessary to insure maximum quality and effective financial reporting results.

- 5. Centralized purchasing utilizing a purchase order system for the City. Control procedures for purchasing include numerical sequenced purchase orders and check requests.
- 6. Cash procedures are strictly maintained and enforced in an effort to insure acceptable checks and balances are adhered to, including the following recommendations:
  - a) All money is to be deposited daily.
  - b) All posting should be from the original document or a copy of the check, if necessary, and cash receipt to allow for the depositing of money daily.
  - c) Documentation of the amount of cash and checks to be deposited to be submitted with paper work pertaining to the deposit and posting of the cash receipt to the general ledger.
  - d) A deposit ticket should be completed; making sure the total is the same on the bottom and down the side. If it is correct, place your initial at the bottom of the deposit ticket and place it in the locked bank bag. The money and the deposit ticket should then be maintained in a locked bank bag for deposit by a separate person, if possible.
  - e) Persons with bank bag keys should not allow anyone else to open or close the bag. The person with the key is responsible for the funds.
  - f) Money should be in a secure place at all times. At no time should money be out on a desk unattended. All funds are placed in a safe or vault at night or when the deposit is completed.
  - g) Each person should have an assigned cash drawer and no access should be allowed to other's drawers, even if staff is manning both the drive-through and teller windows. This can preclude identification of the individual responsible for any shortages.
  - h) Refunds should never be given out of the cash drawer. All refunds will be processed through the Finance Department.
  - i) No one in the Finance Department should handle cash.
- 7. The City keeps a complete set of accounting records, the minimum of such is:
  - a) General ledger
  - b) Paid invoice file
  - c) Payroll ledger
  - d) Bank reconciliations
  - e) Accounting work papers
- 8. Cash reports are prepared and submitted to the City Administrator each month.
- General ledgers are reviewed monthly by the Director of Finance and department head's should also review their department's performance according to budget to actual comparisons periodically.
- 10. All transactions are properly documented as follows:
  - a) Cash disbursements are documented by either a signed purchase order or approved check request or approved signed contract or bid document, along with an invoice and verification of receipt, if possible.
  - b) Utility cash payments are documented by computer printouts detailing customer payments for the day that tie to the daily deposit for each cash drawer. All payments are posted by the Finance Department after being posted by the designated teller.

- c) Cash payments are documented by cash receipts in numerical order showing all payments for that day that tie to the daily deposit and cash balance in the drawer.
- d) At the end of the day, all documentation is reconciled to the total of the cash, checks and other forms of payment received.
- 11. An independent firm of Certified Public Accountants performs an annual financial audit of the City of Blue Ridge. The City's fiscal year end is December 31st and the audit is due to the Georgia State Department of Audit and Accounts by June 30th each year.

# 12. Policy and procedure protocol:

- a) Policies and procedures should be reviewed by the Director of Finance on an annual basis and any changes necessary submitted to the City Administrator with copies to the Mayor and Council for approval. If a policy and procedure is revised, a new revision date, month and year, is noted on the policy and procedure.
- b) New policies and procedures are developed as needed.
- c) Employees will be given a copy of applicable policies and procedures at time of hire and appropriate training will be provided. Their signature denoting their understanding of said policies will be required after training. As policies are updated, staff will be notified by email or interoffice mail.
- d) The original adopted policies and procedures of the City will be kept with the Clerk's records at City Hall and in the Finance Department. Electronic files will be maintained on the server.

# INTERNAL CONTROL OVER FINANCIAL REPORTING

The system of internal control over the financial reporting includes policies and procedures designed and implemented to provide reasonable assurance that the City's financial statements are fairly presented in accordance with generally accepted accounting principles. The controls are the specific policies and procedures designed and implemented to prevent or detect and correct misstatements that, if not prevented or corrected, would cause the financial statements to not be fairly presented.

A well designed and properly maintained accounting system is necessary to be able to provide all data that is needed to allow for the timely preparation of financial statements in conformity with generally accepted accounting principles. The official source of generally accepted accounting principles for local governments is the Governmental Accounting Standards Board (GASB). The Governmental Accounting Standards Board is an independent, not-for-profit organization that establishes and improves standards of financial accounting for local governments.

## DOWNTOWN DEVELOPMENT COMPONENT UNIT FUND

#### **DOWNTOWN DEVELOPMENT AUTHORITY COMPONENT UNIT 800**

## CATEGORY SUMMARY 2024

#### **FUND DESCRIPTION**

GASB 61 defines component units as legally separate organizations for which the elected officials of the agency are financially accountable. The Downtown Development Authority Component Unit Fund was created to account for revenues and expenditures associated with the Downtown Development Authority. The DDA was abolished in 2023. Funds remaining in the fund are designated for the Downtown Restroom Facility Project.
